Quotes - Frames & Trusses – approx. 16-18 Working days (standard residential quotes)

Quotes - Frames & Trusses – approx. 5-6 Working days (carport quotes)

Quotes - Frames & Trusses – approx. 24 Working days (multi-residential & commercial quotes)

October Project Highlight

Builder – Mair Constructions

Location – Highgate Hill

Recently delivered unique parallel scissor trusses delivered to Mair Constructions. These trusses have a consistent steep top and bottom chord pitch of approx. 22 deg. This is a very unusual design and definitely not your normal “cookie cutter” roof / ceiling profile. We achieved this design using Mitek Sapphire software and in consultation with the designing Architect and our Builder / client. A great result achieved!
